Reddy says he cannot be sure whether the  
expansion will be a good thing or not.  
But he says it is a good thing.

[illegible]

It is a very common mistake to suppose that the  
1870s and 1880s were a very bad time for the

*punctata* & *terminalis* etc. etc.

7. Live bank lamp, in the form of a  
candlestick, with a glass chimney.

all Hypocistis what's 5 species -  
also WZ & L. canis etc.

Walter's note from 1912, says  
the same and is also in the book.

ad Repellendum

1. Zima (1919) - 1920  
 2. Zima (1920) - 1921  
 3. Zima (1921) - 1922

My opinion is that the above is a very good one.

*Spizella monticola* was very common at  
the mouth of the river and yellow throats  
were also quite numerous.

are not only you, Mr. B. and his son, but  
the whole of the American people, who are  
desirous of establishing peace in the  
Siberian region, and who are not only  
interested in the peace of the world, but  
also in the peace of the American people.  
The peace of the world is the peace of  
the American people, and the peace of the  
American people is the peace of the world.  
The peace of the world is the peace of the  
American people, and the peace of the  
American people is the peace of the world.

Soll ich mich von Valerius abheben? Nein.  
muss ich bleiben. So muss ich die Zeit  
mit ihm verbringen. Ich muss mich  
um ihn kümmern und er wird mich  
dafür danken.

It is a very plain, simple, and direct statement of the facts of the case, and is a very good example of the style of the author. The language is clear and concise, and the facts are stated in a straightforward manner. The author does not attempt to make any elaborate argument, but simply states the facts as they are. This is a very good example of the style of the author, and is a very good example of the style of the author.

Acido Potabile

Acciaio limato una libra, si bagna con  
 aceto distillato tre volte, e che sia ben picante.  
 Si stende sopra d'un piatto, et si pone  
 all'humido, come è asciutto, si pesta  
 e si torna à bagnare, fin tanto, che  
 sarà convertito in argine, Laq<sup>la</sup> si  
 ponerà in un lembiccio o matraccio,  
 sopra se gli ponerà tanto aceto distillato  
 che sopra noti due dita si lascerà  
 stare per 24. hore caldo, e poi si  
 cauerà per sublimationi H<sup>o</sup> Luceto,  
 E poi di nuovo si tornerà sopra à detto  
 acciaio per 24. hore e si cauerà come  
 sopra, fatto la terza volta si tornerà  
 nella d. bocca, e se gli aggiungerà  
 oncie quattro di malvasia dolce  
 e si farà stare per altre 24. hore.  
 E poi si colerà il liquore, e sarà fatto
